TECH SKILLS

Javascript • ReactJs • NextJs • HTML5 • CSS • Tailwind CSS • React native

Experience

SAS One Pvt Ltd

Lucknow

Frontend Developer

September 2021 - Present

Work Description

- Developed and maintained websites and mobile applications using Javascript, ReactJs, NextJs, HTML and CSS.

Utilized React.js to build robust and interactive user interfaces, ensuring a smooth and engaging user experience across various devices.

Demonstrated proficiency in Next.js, harnessing its capabilities to develop server-side rendering (SSR) and static site generation (SSG) applications.

Implemented and maintained a component-based architecture in React.js, fostering reusability and scalability of code.

Integrated RESTful APIs endpoints into frontend applications, ensuring seamless communication with backend services.

Applied best practices in code optimization, including lazy loading, code splitting, and minimizing resource requests to enhance application performance.

Experienced in utilizing Bitbucket for version control, including creating and managing branches, resolving merge conflicts, and conducting code reviews
