

Vivek Singh

4910vivek@gmail.com • 8707794910 • Hardoi, Uttar Pradesh

With 4 years of dedicated experience as a frontend software developer, I have honed my skills in JavaScript, ReactJS, and NextJS. My primary focus has been on helping organizations achieve their goals by leveraging my expert and abilities in the realm of frontend development. Passionate about my work and career, I am driven by a commitment to excellence and a constant desire to contribute to the growth of the organizations I work with. I take pride in my proactive approach to problem-solving and my ability to adapt to evolving technologies.

Skills

JavaScript • ReactJS • NextJS • HTML5 • CSS3 • Tailwind CSS • React Native

Experience

JULY 2024 – PRESENT

TATA CONSULTANCY SERVICES | PUNE, INDIA

- Working as a Frontend Developer, leveraging ReactJS component-based architecture to create scalable and maintainable web applications.
- Developed responsive web pages and interactive user interfaces using React.js, ensuring optimal functionality across various devices.
- Collaborated with cross-functional teams to deliver high-quality user experiences, incorporating modern frontend development practices and performance optimization techniques.

SEPTEMBER 2021 – JULY 2024

SAS ONE PVT LTD | LUCKNOW, INDIA

- Developed and maintained websites and mobile applications using JavaScript, ReactJS, NextJS, HTML, and CSS, delivering interactive and responsive user experiences.
- Used React.js to build reliable UI components and Next.js for server-side rendering (SSR) and static site generation (SSG) to improve performance and scalability.
- Integrated RESTful APIs into frontend applications, ensuring seamless backend communication, and applied best practices like lazy loading, code splitting, and resource optimization.
- Demonstrated expertise in version control using Bitbucket, managing branches, resolving conflicts, and conducting thorough code reviews to maintain code quality.
